

Analysis

Identify the problem and objectives, and collect information

- Identify Goals
- Answer Questions: Who, What, When, Where, and How?

Design

Define the strategies and interface

- Document Strategy
- Create Storyboards
- Design Interface
- Prototype & Test

Development

Develop the learning resources

- Create & Assemble Content
- Develop & Integrate Technologies
- Test & Debug

Implementation

Prepare the learning environment and deliver the solution

- Train the Teachers
- Prepare Learners
- Share Course with Learners
- Monitor

Evaluation

Evaluate the effectiveness of the solution

- Evaluate Solution During Each Phase (Formative)
- Evaluate Effectiveness of Implemented Solution (Summative)
